SNIPPETS FROM PREVIOUS SPEECHES/QUOTABLE QUOTES:

“...The new age and governance of technology is the future of our legal system. I believe it to be a time of enlightenment, a time to know more, to discover, to learn, and a time to develop oneself in every ramification. Especially when reviewed from the lens of current developments in Nigeria and beyond, efforts to improve and develop the legal profession must go together with efforts at increasing opportunities for young lawyers....”
